U.S. Department of Agriculture • Forest Service

Miscellaneous Publication 1003 • Washington, D.C. 20250
Issued October 1965
**COMPILER’S NOTE**

This bibliography lists publications and postgraduate theses in the field of forestry economics issued in the United States and Canada in 1960, 1961, and 1962. Other such bibliographies that have appeared since 1929 are:

- Rumsey, F. Forestry economics, a current selected bibliography. Nos. 1-7. Department of Forestry Economics, State University College of Forestry at Syracuse University, Syracuse, N.Y. June 1963-June 1965 (three issues per year).

Sources consulted in compiling the present bibliography include the following: Card catalogs at the libraries of the U.S. Department of Agriculture, Syracuse University, Cornell University, and State University College of Forestry; Bibliography of Agriculture and other bibliographies of forestry and of economics; Forestry Abstracts; Economic Abstracts; Dissertation Abstracts; annual reports and publication lists of U.S. Forest Service Experiment Stations; U.S. Superintendent of Documents Catalog of the Public Documents; forestry, economics, and wood-industry trade journals; Canadian Department of Forestry and provinces publication lists; Books in Print; and indexes and review sections of pertinent periodicals.

All works listed have been reviewed, with the exception of those marked with an asterisk.

The compiler thanks the Forest Service, U.S. Department of Agriculture, for sponsoring and publishing this bibliography. Staff members of the libraries listed above were most helpful, as were the authors who provided lists or copies of their works. William A. Duerr, Chairman of the Department of Forestry Economics in the College of Forestry at Syracuse, served as advisor in the project.
